
Post Baccalaureate Program in Glass

The Glass Department Post Baccalaureate Program is a unique course of study that provides one year of individualized training and education in glass. Upon acceptance into the program, an interview and portfolio review help determine a dedicated curriculum for each candidate.

This program is intended to assist students with varying levels of experience in combining technical glassworking and art concept into a well-rounded studio practice. A wide spectrum of Glass Department undergraduate and graduate studios and seminars are considered in creating each custom post baccalaureate course of study.

For many, the post baccalaureate year will serve as supplementary and developmental preparation for graduate study in glass. For others, one year of highly personalized study will be its own reward to be applied to professional studio practice. All post baccalaureate students are considered full time students and they are provided with dedicated studio space and complete access to the glass facility.
