Footnotes

¹ Summer Transfer Program may be waived at the discretion of the Department Head. The total of 111 credits must still be earned by the student to graduate with the MIA degree. The total of 156 credits must still be earned by the undergraduate students to earn the BIA degree.

² Receives Art History credit.

³ Receives Liberal Arts Elective credit.

⁴ Choose a Liberal Arts class, a major elective, or a nonmajor studio elective, depending on unfulfilled degree requirements and class availability.

Curriculum notes

Some transfer students may need additional semesters to acquire all credits needed to meet graduation requirements. A six-credit design studio must be carried every semester of enrollment except for final semester when Degree Project (DP) is taken.

Students may choose to take Liberal Arts courses during Wintersession, as space and interest allow. Nonmajor studio electives can be taken during Wintersession or during Fall or Spring in place of a liberal arts course for that semester.

Students entering the Department of Interior Architecture must participate in its required laptop program, purchasing hardware, software, upgrades and insurance, as specified in the Department's "Laptop Program Requirements and Policy Guidelines".

Total credits required: For the BIA (156); for the MIA (111)

Undergraduates must satisfy the 42 credit Liberal Arts requirement in order to earn the BFA or BIA degree.

For more information, see the "Graduation Requirements" section of this book.
