		<i>Year Total</i>	15	3	12

Footnote

¹Senior Thesis Studio Elective: Senior in Sculpture must choose a studio elective, with the permission of their studio thesis advisor, that augments or compliments their ongoing work toward thesis presentation in the Spring semester.

Curriculum notes

A minimum of fifty-four (54) credits in Sculpture are required for the major. Art History courses beyond the minimum are strongly recommended.

Sufficient elective courses must be completed successfully to fulfill a minimum total of 126 credits necessary for a BFA degree. Twelve of those credits must be earned in nonmajor studio electives.

Some courses from other departments may be given Sculpture credit. Those courses are to be selected in consultation with the department head.

The curriculum above adds up to the 126 credits required for the BFA. The Liberal Arts component is 42 credits, but detail is shown only for 30 of the credits in Liberal Arts (assuming 12 credits in the First-year Program). To accumulate 42 credits, courses may be taken during Wintersession or during the Fall or Spring semesters, as scheduling and interest permits. Consult your advisor, the Liberal Arts Office or the Registrar for additional information.
